The two members of the Maler racing team, Ken Maler of Castaic and Dave Blankenship of Reseda, experienced opposite ends of the spectrum Saturday at Saugus Speedway.

Blankenship, who started running the car as a backup for Maler, shattered Rick Crow's Street Stock qualifying record, circling the track in 18.41 seconds — .14 faster then Crow's record run last season. Blankenship also captured the oval main event, finished second in the figure 8 and regained the points leadership from Steve Nickolai.

Blankenship (128 points), who had a fasttime nullified three weeks ago when a post-race inspection found his wheelbase to be ½ -inch too short, leads Ed Horst (122) and Nickolai (120).
